Chapter 5 Home Investigation: How Does Your Sense of Taste Work?

1. With an adult, set up an investigation to find out more about how the human sense of taste works. Write your investigation question below.
Example investigation question: Which part of your tongue most strongly senses the sour taste of a lemon?
2. Take notes as you do your investigation. Repeat the investigation three times to see if your results are the same.
3. Explain to the adult *why* you think they can taste things and what you found out about the sense of taste from your experiment.

Investigation question:

Notes:

What I found out:
